

At FirstCare, we believe that all Texans and our communities should be healthy and health care should be accessible for all of our friends and neighbors.

FirstCare was founded in Amarillo in 1985, and we're still locally owned. We put down roots and we've watched them grow. In fact, we're owned by Texas-based [Scott and White Health Plan](#) —part of [Baylor Scott & White Health](#).

At FirstCare, we put you first.

Check out our new [video](#),  or download our online [brochure](#). 

Our Mission

Working together to serve our customers and build healthier communities—one member at a time.
