

Continuity of Care/Transition of Care Request Form

GENERAL INFORMATION ABOUT THE TRANSITION ASSISTANCE PROGRAM

What is Transition of Care? Transition of Care coverage allows you to continue to receive services for specified medical and behavioral conditions for a defined period of time with health care professionals who do not participate in the FirstCare Health Plans network until the safe transfer of care to a participating doctor or facility can be arranged. You must apply for Transition of Care at enrollment, or at the time of an FirstCare provider network change, but no later than 30 days after the effective date of your coverage.

What is Continuity of Care? Continuity of Care allows you to receive services at in-network coverage levels for specified medical and behavioral conditions for a defined period of time. Continuity of Care occurs when there are changes to your FirstCare network, and there are clinical reasons preventing immediate transfer of care to an in-network provider. A request for these services must be submitted to FirstCare within 30 days of the network change.

How Transition of Care/Continuity of Care Works:

- You must already be under treatment for the condition identified on the Transition of Care/Continuity of Care request form.
- If Transition of Care/Continuity of Care is approved for medical or behavioral conditions, you will receive the in-network level of coverage for treatment of the specific condition by the health care professional for a defined time frame, as determined by FirstCare. If your plan includes out-of-network coverage and you choose to continue care out-of-network beyond the time frame approved by FirstCare, you must follow your plan's out-of-network provisions. This includes any pre-certification requirements and any cost sharing and/or balance billing that may occur from the out-of-network provider.
- If approved, Transition of Care/Continuity of Care coverage applies only to the treatment of the medical or behavioral condition specified and the health care professional identified on the request form. All other conditions must be cared for by an in-network health care professional for you to receive in-network coverage levels.
- The availability of Transition of Care/Continuity of Care coverage does not guarantee that a treatment is medically necessary. Nor does it constitute pre-certification of medical services to be provided. Depending on the actual request, a medical necessity determination and formal pre-certification may still be required for a service to be covered.

Examples of acute medical conditions that may qualify for Transition of Care/Continuity of Care include, but are not limited to:

- Routine Pregnancy in the second or third trimester at the time of the effective date of coverage or time of health care professional termination.
- High-risk pregnancy at the time of the effective date of coverage or time of health care professional termination. This is defined as:
 - early delivery (three weeks prior to due date) in previous pregnancy
 - patient has had/has gestational diabetes
 - pregnancy induced hypertension

- multiple inpatient admissions during this pregnancy
- mother's age is > 35 years old.
- Newly diagnosed or relapsed cancer in the midst of chemotherapy, radiation therapy or reconstruction.
- Trauma.
- Transplant candidates, unstable recipients or recipients in need of ongoing care due to complications associated with a transplant.
- Recent major surgeries still in the follow-up period (generally six to eight weeks).
- Acute conditions in active treatment such as heart attacks, strokes or unstable chronic conditions, etc. For the purpose of this policy, "active treatment" is defined as a doctor visit or hospitalization with documented changes in a therapeutic regimen within 21 days prior to your plan effective date or your health care professional's termination date.
- Hospital confinement on the plan effective date.
- Behavioral health conditions during active treatment.

What time frame is allowed for transitioning to a new participating health care professional? If FirstCare determines that transitioning to a participating health care professional is not recommended or safe for the conditions that qualify, services by the approved non-participating health care professional will be authorized for a specified period of time or until care has been completed or transitioned to a participating health care professional, generally not to exceed 90 days unless otherwise authorized for an additional period of time.

Please Note: If you require ongoing care for any chronic condition and you are not in an acute phase of your illness, or one requiring a special course of treatment, you should select an in-network provider to meet your ongoing health care needs and you do not need to complete this form. If you need assistance selecting a new provider, you should contact our Customer Service representatives at the number on the back of your ID card.

If one or more of the above situations applies to you and you would like to see if you are eligible to participate in transition of care, please:

- Call Customer Service number on the back of your ID card, and they will assist you with understanding how you should complete your form. Customer Service will assist you in locating a network provider. The determination of whether you qualify for a transition or continuation of care will be made by the Health Services Department.
- Or, fax this completed request form to Health Services Department at 1-800-248-1852
- Or, mail to FirstCare Health Plans, 12940 N. Hwy 183 Austin, TX 78750 ATTN: Health Services Department

To help ensure that your care is not interrupted, please complete the entire form below. Only complete this form if you are receiving ongoing care or are scheduled for care and your current provider is not part of our network. If your provider is not part of our network and you need assistance locating a network provider, contact Customer Service and they will assist you with a network provider.
